Grateful Essay

This Thanksgiving, I am thankful for three things. The first thing I'm thankful for is my family. This is because every Thanksgiving, I go to both sides of the family instead of one. The second thing I'm thankful for is that I have a good doctor. I think this because whenever I'm sick he tells me what to do and it works. The last thing I'm thankful for is my home. I'm happy that I have a place to live, sleep and eat. These are the reasons why I'm thankful this year.
