## *Grateful Essay*

*This thanksgiving, I am thankful for three things. The most important thing I am thankful for is my family. Without them I would not be here. Also, I feel safe around them. Next, I am thankful for my house because when I am inside I feel warm. Also, I sleep inside. The last thing I am thankful for is my teachers because I won't be smart without them. Also, I learn lots of new things every year. As you can see I thankful for these things because they make me who I am.*
