GRATEFUL ESSAY

I am thankful for three reasons this Thanksgiving. One thing I'm thankful for is my family. I am thankful for my family because my new cousin was born this past Saturday. Another reason I'm thankful for her is because she is cute and funny. Next, I'm thankful for my health because I am healthy and without doctors we would not be healthy. Last, I'm thankful for my home, because I have a roof on top of me so I don't get sick from the rain and freeze from the snow. That is why I'm thankful for my family, health, and my home.
