

I Am Thankful For

Hannah camarda

Thanks giving reminds me of the things I am thankful for I appreciate My family, My religion, and My health. I'm especially thankful for My family because My family looks out for me. My family help me because if I would make a wrong choice they would not yell at me or say "Why didn't you pick what I want" They are nice to me. I am also thankful for my mom because she gave me life. The second thing I am thankful for is my religion.

The second thing that I am thankful for is my religion because My country Brooklyn My gave me freedom. I am also thankful that I am a Jew and I love it. I am very thankful for the israel army and the us army because they protect everybody here and there. I love how they are nice to everybody. Finally I'm great

Finally I'm grateful for my health because I am alive and living in a beautiful house. I don't want to be poor. I have money. I have food and water. My house has security.

~~the~~ I enjoy this holiday I realize
I have many reasons to be thankful
Family religion and health are important
to me
