There are many things for me to be thankful for. First, I am thankful for my friends and family. I am thankful for these people because they are constantly supporting me, and I am happy for the good experiences I have and will continue to have. Secondly, I am thankful for having food. Sadly, lots of people die from starvation, or some families can't afford food. That's why I feel lucky to be able to enjoy good meals. Last but not least, I am thankful for shelter (my house). Unfortunately, lots of people don't have access to a home. All in all, those were just the few things I am thankful for.
