

# I am grateful

liam

I am grateful for three things and I am going to share them with you.

I am grateful for my family because my mom is smart and a really good teacher and my dad is super fun.

I am also grateful for my class and my teacher because my class is super cool and a great team and my teacher is super fun like the class and we do cool science projects.

Last of all I am grateful for the world and everything in the world and I am grateful for being born and me so I thank god for that!
