

What I'm Thankful For
Mariella Favel

When I think of Thanksgiving, I think of all the things I'm thankful for. I'm thankful for my life, my health and my education.

I'm really thankful for my life because, I really enjoy it more and more each day. I need food and water to live my life. It would be hard living without a shelter, and I can't imagine living without a family. I have a lot of friends in my life. These are the things that make my life happy.

I also appreciate my health because, some people have dangerous diseases and some people pass away from them. I'm glad that I am not sick and that I have the ability to play and learn like a healthy kid. I'm happy that I don't need to take serious medication. I also don't need to visit the hospital.

Lastly I'm grateful for my education because, without education you can't get a job and you won't be successful in life. I go to an amazing school that provides great education.

In my school we learn all the subjects. I have awesome teachers that are kind and intelligent.

As Thanksgiving comes, I notice that I'm thankful for a lot of things such as my life, my health and my education. I'm very happy to have all of these things.
