

I am grateful for mom. I am grateful for my mom because she is kind and she helps me with stuff I need help with. She also helps me make my lunch. I am also grateful for my mom when she takes me to my activities I have outside of school. She also signs my agenda and that helps to do my job for school.

Another person I am grateful for is my dad. I am grateful for my dad because he is the one that gets me off the bus in the afternoon. I'm also grateful for him cause he takes me to my football practices after school is over. He also helps me with getting my dinner cause I don't know how long I need warm it up in the microwave. I am also grateful for him cause he is the one that encourages me during my football games.

I am also grateful for my teacher Mrs. Garrow. I am grateful for her because she is my teacher and helps me learn things at school. Another way I am grateful for her is when she helps me when I am stuck on a problem. I am also grateful for Mrs. Garrow because she gives us fun movement breaks in between transitions.

These are people who I am grateful for. I am happy that these people have helped me out with what they did to help me.
