Thanksgiving is a special day where people sit at the table and eat turkey and other special food. Sometimes family and friends get together to make barbeque. Sometimes children like to dance.

I am thankful for my family, friends, and America. I am thankful for my family because they gave me life, and they buy me toy's. I am thankful for my friends because they are not mean to me. I am thankful for America because it my country where I live.

I am thankful for my grand-parents because they were caring about my parents. I am thankful for my Theacher because she teaches me. I am also helpful for the police officers because if we didn't have police officers we will not be safe. I'm thankful for the firefights because they always fight with fire and sometimes the die in fire. That is what I'm thankful for.
