On Thanks giving I am thankful for helping homeless people because if they get no donation. They can die and because I did it in real life I helped one by my mom giving me a 20 dollar bill to give to the homeless and I hate it when people die. One time I saw a dead homeless. I am also thankful for my gods because he gives me blessing. he makes me feel better when something is hard. I'm even thankful for having a job because then when I'm older I can helpout my family. I am thankful for having such good friends because we sit together at lunch. we play together at recess. we also hang out at dismissal. Every time during the week and month.
