The first person is my sister .I am thankful for her because she always makes me laugh when I am hurt .

The second reason what I am thankful for her is that she always wants to play with me.

The second thing is my hamster and I am thankful for him.I am thankful for Chico because he always likes to go through my hands and sometimes stays on them.

The second reason I am thankful for him is because he keeps me company and his eyes light up when I enter the room .

These are all the reasons that I am thankful for my sister and my pet this Thanksgiving.
