What are you thankful for this year?

This year I have many things to be thankful for, including my very own existence. Many people are in much worse conditions than me, so I am thankful to have a home and a nice family. Most of all I am thankful for who I am.

In addition, I am also thankful to live with people who care about me. For example, I live with my parents who always keep me safe where ever I am. Without them, I would not even be alive, or existing. They are caring, kind, and they helped me develop the person I am now. My brothers are sometimes annoying, but they keep me amused, and I won't ever have to feel lonely. At school I am thankful for my teacher Ms. Radioli. I am lucky to have such a good-natured teacher. My friends always help me when they can. They are always positive and I try to be a good friend too.

I am also thankful to have a comfortable house. For example, many people around the world are homeless and poor. Many people are also starving or never been warm their entire life. There might be some people who are the only one left in their family. Some people have diseases that blocks them from living a normal life such as, down syndrome. I may not have these diseases, which I am grateful for, but I have eczema, a skin condition. But I do not take pity on myself but, because many people are in much worse situations.

Therefore, I am grateful for many things. I am thankful to be a human rather than an anima in this world because humans have more power and intelligence. I am also thankful for all the great teachers that have taught me all these years including, Ms. Ambrosio, Ms. Abood, Ms. Park, and many more.
