

I'm Thankful For...
By Briseis Morales

What does Thanksgiving mean to you? What it means to me is to be thankful for my family.

I am thankful for my family, because they are supportive. For example, they watch me horse back ride even when it is cold. They also have to take me there every Saturday. Another way that they are supportive is that they love to watch me swim every Sunday.

I am also thankful for my family because they are super kind. For example, they make me my favorite food on Thanksgiving. They make me mashed potatoes and turkey. They also make me soup when I am sick. This is why I think my family is kind to me.

My family is the best because they are supportive, and kind. These are some reasons why I love my family.
