What are you thankful for? Everyone is thankful for different things. They are either thankful for their family, pets, food, their homes or nature. Those are all good things to be thankful for during Thanksgiving. And everyone gives thanks on Thanksgiving. This is what I'm thankful for.

I am thankful for all animals, my family, food and my home. I am also thankful for much more. It is good to just be thankful for more than one thing. If you only care about money or yourself that is not what being thankful means. It means more than just that.

In conclusion I am thankful for a lot. I am thankful for all the stuff I have. Instead of what I need. I am thankful for the world.
