

# I am Thankful

Isabella

I'm thankful for lots of things. some things I'm more thankful for other reason that because more things go to my heart than others. these are going to be some reason why I am thankful for that is close to me.

My family, I'm thankful for my family then others things this is why. First they always look out for me if I get hurt or if I am in a bad situation they support me. Another is that they really love me because I'm there family and I love them for the things they do for me. Lastly, The thing that we do to gain trust, love and faith is that we come to gather and play games, talk, eat, and give thanks that we are with are family. Those are the reasons that I love my family.

I am also thankful for my health. My health is important to me and other. First, some kids suffer for their health they can't do lots of things, that's why I am mostly thankful for my health. Another, some people or kids can't do sports, can't eat things. finally, I can be around my family not getting them sick. that's why I am thankful for my health.

In conclusion, I am thankful for many things these were some things I was more thankful for than others. that why I love my family and my health. Hopefully thanksgiving in coming up and we spend time with the whole family.
