I am thankful for.....

What are you thankful for this year? I am thankful for many different things. I am thankful for my family and my friends. Let me get more detailed here.

My Family and friends are always number one on my what I am thankful for list. My family and friends always support me in everything I do. My family help me out with any homework I have or when I need to study. My friends have been there for me when I am feeling down or even when I am in a happy mood. Whenever I am having a bad day my brother will always come to me and give me a big hug.
