## Giving Thanks

Many people do not have what other people have including food, clean water, and a home. I am thankful for many things that I have. Many people do not see that they have much more than others so they are not thankful. It is important to be thankful.

I am also thankful for friends and family; I am thankful for friends and family because they encourage me to do better. I am also thankful for food because people are dying because of hunger and I have food so I am thankful for that. I am also thankful for a home because it keeps me warm when it is winter and cold when it is summer. It is also very important to be thankful for good health because if you have a sickness it may be bad enough that you could die.

One other thing I am thankful for is education because with out education there would not be jobs and you would not be smart. I am thankful for sports because they are fun to play with friends and family. I am very thankful for clothes because they keep me warm. Last but not least I am thankful for clean water because many people around the world do not have clean water.

# What I Am Thankful For:

Friends/Family

Food

A Home

Good Health

Education

Sports

Clothes

Clean Water
