Thanksgiving is the time where we give thanks to God for all the things he has given us during our years of living! I am thankful for ~~everything~~ for my mom being there when I had hard times in school and home. I am thankful for my friends, God, Jesus, for helping me in my life and helping me get somewhere in life! My teacher helps me the most in school by giving me education so I can become smarter and smarter everyday so I can get in a good High-School and good grades and education! I am really thankful for my family for being here for all ten years of my life, thank you mom for helping me with school problems and situations where it gets hard and they help me ~~and~~ but still make good decisions where nobody get's hurt.
