

are
kind of

Are you thankful for things? Well I am, here
are some things I am thankful for. One thing
I am thankful for is my basketball team because
we help each other and become really good friends.

kinda like sisters that we can trust. We watch out for each other, and
make sure that we are ok. I am also thankful for my grandma
because she gets me a lot of things and makes sure I am always ok.
When I go to see her, her answer is always yes! She makes
you things, you know that she wants to be on your good side like
cookies, ice cream, and all that good stuff. One last thing I am thankful
for is my parents because if they were not here, I would not be
here. They make sure that you are ok and you are very important.
They make you food so you don't starve and make money from
work so they can get you things and have a happy childhood.
These are my three things I am thankful for.
