

God has given each of us a reason to be thankful. I am thankful for many things. I know without the items God gave me my life would be totally different. Without my glasses, I would have a really hard time seeing my family and seeing objects. I don't freeze in the winter because of the place I live in. My house is the reason. Also it's where I meet my family every day. I live with my dad, mom, and my 3 brothers. Outside my house I have cameras to see if any strangers try to tres pass or do anything to my house. Electronics like these, help me get information. This is why the items God gave me made me thankful.
