

What is Thanksgiving to you? To me Thanksgiving is when we celebrate all that we are thankful for. Thanksgiving is a time when

family and friends gather together. We say what we appreciate and give thanks. Somethings I am thankful for are family, friends, veterans, and my education. A few things I am thankful for are my family and friends. They're always supportive when I am down. I also learn from them. My family teaches me to be respectful, and my friends give me a good time when I am with them. I am appreciative to all the veterans. They protect the state that I live in and risk their lives. Without them we would be vulnerable. I am grateful for my education. If I didn't have an education, I wouldn't know half of the knowledge I do today. My knowledge will make me successful in the future. To sum it up, I am thankful for everything I have today. What are you thankful for?
