

Arnon Aguiar

My brother and I looked out the window. I was scared because I thought there would be a robber outside. I saw an ambulance, police, and tons of lights. I was so happy to leave the Bronx. I began to dislike the Bronx when people became very mean. People started fighting with each other in the streets. Going outside became very challenging. At times I would hear gunshot outside my window Bang! Bang! It was loud. My ears went RING! This was very scary for me. I would turn on my soundscapes so that I would not hear the outside noise. Swoosh, swoosh. It was the sound of the ocean. It was relaxing.

I lived in an apartment with no backyard. It was a summer that we couldn't have fun. My brother and I were not allowed to go outside. I was unhappy.

-1-

One day my parents come into my room and gave me the best news. Mom said, "We are buying a house!" I was the happiest kid. We were moving to Poughkeepsie.

The day we received the keys to our new house we moved in right away. My brother and I were like OMG this house is sooooo cool! I now have a backyard to play in with my little brother. I will be celebrating my first Thanksgiving with my family in my new house. I am super thankful for God for giving us the privilege of having a new house. Now I feel safe!
