

Dear senator Akshar

There are many things that I am thankful for and many reasons why. Here are a few. I am thankful for family because you get to see them alot and you are never lonely. I am also thankful for my friends who I always get to play with at recess and get to talk to them. I am thankful for school so I get to see my friends everyday and my teacher. I am thankful for Christmas when we decorate our house, put up our Christmas tree before Halloween every year, decorate it with my family and listen to Christmas music, and when we wake up on Christmas morning and open our presents together and then eat a nice breakfast. Another thing that I am thankful for is thanksgiving. I am thankful for Thanksgiving because we have a lot of family over and my sisters and I help my mom and dad get ready for thanksgiving and set the tables. These are just a few of the things that I am thankful for.

Sincerely,

Adrienne Delmage
