### Family

I am grateful for my family because they are very helpful, caring, and supportive. I have a big family so we all gotta help each other, it's very stressful and hard but we did it. I wouldn't be here if it wasn't for my parents.

I'm also grateful that they are smart enough to be able to help me with things i don't know and that makes me happy. I am amazed how I got so many siblings. It is nice and a pleasure to have siblings and not be the only child cause i will be lonely and i'm not.

I am very thankful that both of my parents have money not a lot because they are able to pay the bills, and get groceries. And if my parents didn't have money I wouldn't be able to go to school that I love and have anywhere to live, And I love that i

have all the things for school. I love how we have each and everyone.

I am Thankful for that both of my parents gave me life cause I wouldn't be here and I would have never seen my other siblings if my parents didn't have me,I also wouldn't experience life and people and all the other things in the world.

Conclusion:I hope you enjoyed why I am grateful for my family,and I hope you are grateful for your family too.
