

Thankful for Art

By Kelsey WH

Art is colorful.

You can make anything in your mind .

You can draw people and pies.

You can go crazy with your art.

You can make rainbows and make it anyway you
want.

Art is beautiful.

Some of them go in your school hall way.

So be happy you have art not all kids do.

And art helps you draw better.

If you want to draw worms you can.

Maybe you can draw flowers and color it after you
are done.

And when you are done show your mom or dad.

If you think art is not fun think again.

If you like pizza, draw it.

If you are bored and have nothing to do, draw.

And if you're mad you should draw.

Maybe when you are sad you should draw so.

And that's why you should be thankful for art.
