I am thankful for a lot of things, especially this year. I'm very glad I have the stuff I need to wake up everyday to get ready and going. But the 2 main things I'm VERY thankful for this year is, first one. Being healthy and alive. Through this pandemic this year, I was scared. I know everyone is scared but the thing is, There's a lot of people that had their lives taken away, which is so sad. But I pray for the people who have it safely and hopefully get through with it and survive. My 2nd one is, having a roof under my head. I know that through this pandemic, there were a lot of people that couldn't afford the bills to pay the house, or not enough money to buy food for their kids to eat. I'm so thankful I have living healthy parents, and to have a healthy family. And I'm so glad I've made it through half of the year. And hopefully the person that is reading this is too.
