

Thankful Essay

By Samantha Hill

This year 2020 has been pretty hard so think about what you're thankful for. I am thankful for many things this year, like my family and freinds.

My family is important. For example my siblings can be a little pain in the butt and fun. They help me stay entertained. Also My Mom and Dad are the best. They feed me, help me. Also, they help me stay safe.

Food is delicious, sweet ,and healthy. For instance food helps keep me alive. It helps me stay here. Secondly food keeps me energetic and healthy. If i didn't have food I would be sleepy a lot and not be able to learn.

I'm thankful for my family, food and many other things. These things are important to me because it is how I stay alive and very entertained.
