

# **Thankful Essay**

By: Sawyer Beeman

Have you ever wondered what you are thankful for? This whole writing shows what I am thankful for and why. A couple of things I am thankful for are my family, friends and pets.

To start things off with my friends. First my friends make me happy. They make me happy by telling jokes and making me laugh. They come to my house almost everyday to play with me. Second, my friends do whatever I want to do. Every time I want to play soccer almost everyone plays with me.

The second thing I am thankful for is my family. First my family is always there for me. If I am sad or hurt my family comes to help me. Second, they always make deals with me. For example when I wanted to get a new phone they said that I had to do all of the chores for a month to get a new phone.

Finally I am thankful for my pets. First they always jump on me. For example when they jump on me they cheer me up. Also they play with me a lot. I have trained one of my dogs named Landon to kinda play soccer with me and now that I taught him how to play soccer he wants to play every day!!!

As you can see I am thankful for my family, friends and pets. Do you know what you are thankful for and why?
