

**NAME: Shamiqa Theophile**

**What am I thankful for?**

**I am thankful for my family and having a roof over my head. Family is important to me because they support me in everything I do. If you are down or sad you could always turn to your sister or brother. Having family teaches you that you matter in the world. Every person in my family brings something to me. For example my mom brings Joy, Confidence, Fun and intelligence. Another example is my sister and brother bringing Uniqueness. intelligence, Fun, loyal, Creative and double the trouble. When you put all of this together that's what makes family. Everyone might not have a dad or mom, brother and sister. But guess what you do they might not be with you right now right there. But you do, Family stands for FUN, AWESOME, MINDFUL, UNSTOPPABLE, LOVE and YOU. I love my family and that WILL NEVER EVER CHANGE.**

**Thank you :)**
