

Thankful Essay

By Sophia Kholod

Covid and sickness oh no!! I am grateful for many things this year. I am thankful for family, school and safety.

One thing I'm thankful for is family. For example, none of my family got covid. Me and my family are still together. Also, my sister helps me with lots of things and she makes me laugh. She also makes delicious food .

Another thing I'm thankful for is school. To begin with, I can be with my friends, instead of seeing them on a screen. Also, it is easier to learn. When I'm on my computer it is sometimes hard for me to learn.

Finally, I am thankful for my safety. To start with, I still don't have covid, because of all the people who are trying to keep the places healthy and safe. Also, I am safe because of all the safe equipment, like masks, hand sanitizer and lots more.

In conclusion, I am thankful for lots of things like family, school and safety. I am thankful for lots of things and this year I am even more thankful.
