

# Thankful Essay

By: Mathew Vanderpool

Do you think about being thankful often? I am thankful for many different things. I am thankful for school and staying safe.

Being back in school is exciting. One reason, I am learning again so I can be smart. I get to see teachers and learn how to get smart again from being home for 7 months. I can play with friends and get a good feeling. second, if I am not feeling good, I can go to the nurse to keep my friends safe from getting sick.

I am thankful for staying safe. To start with, the teacher stays behind a piece of tape on the floor and we are in plastic barriers. This makes it so we can have our mask off and the teacher can have her mask off. Every room has a vent so it's not scary.

In conclusion, I'm thankful that we can be back in school and be happy and excited again.
