

What I'm Thankful For

I am thankful for my parents because they work really hard to give us everything and need and sometimes things we want. They also paid for my siblings college education which is great because they don't need to worry about if they will be able to finish their college education. I am also very thankful for my siblings because they are giving and very grateful towards my parents.

My life would be different without my family because my parents and siblings have done so much for me. My parents love to travel to fun places with us which makes a bigger impact on my life than most probably think. They also love us unconditionally and are always supportive.

My life would be different without my family because my life would be so boring. I'm super grateful for my sister because she lives in NYC and attends FIT; she has always wanted to go into the fashion industry. But most of all I'm thankful that my whole family is happy and healthy.
