

WHAT I AM THANKFUL FOR

I am thankful for my family. Without them, my world would be a lonely place. They give me confidence when I'm nervous about something. And although my sisters may be rowdy sometimes, they make our house a home. My parents believed in me even when I didn't think I could make it through 8th Grade. Although things aren't the way they used to be, I'm glad I still have them. Without them, I wouldn't have someone to confide in and trust.

Another thing I'm thankful for is my best friend, Katherine. She is always there for me and she always listens, even though the only way I can communicate with her is through the phone. But, I've never forgotten her, and she never forgot me, either.

If she wasn't here, my world would be a lot lonelier. I would be alone at school most of the time. I'm really glad she's in my life.
