This year, I am thankful for many things and people in my life. The thing I am most thankful for is my family. My family is who I am most thankful for because they are always there for me, to support me and help me with anything I need. I am thankful for my parents and all they have done to provide for my family. My brother and sister are also who I am thankful for because although my parents have taught me so much, my siblings have shown me what it's like to have built-in best friends. They have taught me things I would have never learned without them. I am also grateful for my nanny, she has always been there for me in everything I've done, and has taught me life lessons that I would have never known. Lastly, I am thankful for my dog. He always puts me in a good mood and makes me happy everytime I see him because he is so cute.
