

What I am thankful for By Oisin Stack

What am I thankful for?
I am thankful for a few things actually. The main thing that I am thankful for is, that my family made it through the Covid-19 pandemic (so far anyway). I am just so happy that none of my family members survived the pandemic, but it was not without the scares my family experienced (I won't go into detail about it) I should also be thankful for the vaccine because without it my grandmother and my aunt would not have survived their incident with Covid-19. It is just such a relief that my family and I are (nearly, hopefully) through the vitaces wrath.

Another thing that I am thankful for is, that I am back in "in person school". I am thankful for this because, being in school helps me learn at a faster pace and really does help me do much better on tests and improves my grades in general. Last year was full of so much pain and suffering, so being in person makes me feel like things are

somewhat back to normal. Being in ~~the~~ school just gives me a clear mind and helps me think about me and my life and how it compares to others to improve my own.

I am thank-full for much more than those two things, but those are the things that I am most thank full for out of all things that I am thankfull for. We've all been through rough times during the pandemic, but (hopefully) we can look to the future for the human race to get over this bump in time and improve from our past mistakes. That is just what I am thankful for, and happy thanksgiving.
