Thankful Poem

I am thankful for the sun,

When it becomes warm I have outside fun.

I am thankful for the trees,

And when the temperature falls like leaves.

I play in the snow that I am thankful for,

And how it melts so fast,

Oh how I wish there was more.

I am thankful for the sun,

And how it warms my heart,

Oh how summer has begun

The environment is very special

Just like yellow flower petals.

The environment is the greatest reason to be thankful.
