

I am thankful for my sister and my cousins because all my cousins help me with everything. My sisters stick up for me. I am also thankful for my Mom and Dad. They pay for me to go to a catholic school. I am thankful for my whole family.

I'm also thankful for Doctors and Medicine. Doctors they help me when I am sick. Medicine cures people when they are sick. They are really important.

Another thing I am thankful for is priests and deacons. Teach us about Jesus and God. Priest and Deacon are important.

The most important is God because he made the world. Without God we would not be alive. They are the most important
