

“Dandelion Wishes”

Childhood memories, beautiful scenery,
I wish upon these dandelions to have the
chance to visit once more,
To enjoy the time when we were younger
No care for the world,
As I watch the dandelions seeds sway
across the field
I am forever grateful to watch these
beautiful moments,
To have my family and friends along side
Grateful to make these wishes as a kid I
once used to call
“My Dandelion Wishes.
