

Ariam Brook!

A quality that I am thankful for is that I always like to be nice to people even though they are mean to me. Also I like helping my family out with stuff like shopping, dinner, when they are sick, and helping around the house. What I am thankful for is being with my family and always having clothes and food to eat. I am also thankful for being taken care of by my family and when I am anywhere someone would care always for me and I am happy about that.
Sincerely, Ariam.
