

What Qualities Do You Have That You Are Thankful For?

By Bryanna Prentice

I am thankful for being funny, smart, and kind. I am funny. That is why I have friends. I do a funny dance and make my friends laugh. I am also kind. I am kind by helping to pick up something that someone drops. I am smart. One way that I am smart is by asking for help. I also do what I am asked to do. These are the three qualities that I make me who I am.
