

Thanksgiving Essay

by Joseph Keenan

We can use Thanksgiving to be thankful for others. We also use this time to be thankful for all of the qualities that we have in our life. These qualities that I am thankful for are being a great friend, being athletic, and being a good student.

I consider myself to be a great friend. Some of the qualities that make me a great friend are always giving my friends advice when they need it. I also always try my best to help them out when they need it the most. When we hangout we are usually playing wiffle ball or kickball, but when we are out and not playing anything we are usually joking around with each other and making fun of each other as a joke. I always love spending time with my friends.

Another quality that I am thankful for is being athletic. Some of the sports that I play are baseball, soccer, tennies, swimming, and track. I love doing these sports because I like to compete. I also like to be on a team with my friends. I also like to stay in shape. Some of these sports also help me with some of the other sports that I play. For example swimming helps me get faster for soccer and baseball.

The final quality that I am thankful for is being a good student. I like to think that I am a good student because I try to do my best in all of my classes and do what I am supposed to. I do not always get good grades on all of my assignments but I always try to bring my grade up by trying harder on the next one. I think that I have been doing a good job as a student and have improved a lot from last year. Some of my averages are in the eighties but I will be trying my best to bring them up.

I have many qualities that I am thankful for but these are the most important ones that I have. I am so thankful for my friends, family, and everything else that I have. The most important thing that I am thankful for is my freedom.
