

# A Great Time To Give Thanks

Kevin Farrell 7-B

Thanksgiving is a time to be thankful for all that we have in our lives. Some things that I am thankful for are my family, house, friends, food, water and my traits or characteristics. I have many great characteristics that I am thankful for. I am so thankful for my characteristics because that is who I am as a person.

Some characteristics that I am thankful for are me being helpful to others. I am thankful for this characteristic because when I help someone I feel good inside and so does the other person. Another characteristic I am thankful for is being funny with my friends. I am thankful for this because I enjoy joking around with my friends and they enjoy it too. I like putting a smile on their face when I make them laugh.

Some more characteristics that I am thankful for are that I am very curious. I am very curious in and out of school. In school I am always curious about learning about Science, Religion, and history. When I am out with my friends I am very curious and want to try everything new. I am also very

creative. I used to have a sketchbook where I would freely draw and create new things. I would create my own villages and people. I have a very good imagination.

I am very athletic and active. I am always swimming, basketball, or soccer. This is another trait that I am thankful for because if it wasn't for sports I would not have met many of the friends that I have today. Another trait I am thankful for is my ability to make friends so easily because I am very friendly.

I am thankful for all of these great characteristics that make up who I am and my personality. I think that we should always recognise how great we really are and be more thankful for these traits.
