

Margaret Adams

Grade 8

I have many good qualities for which I am thankful. These qualities help me to be a better person, daughter, friend, and even a better student when I choose to act on them. These qualities include being kind, giving, forgiving and understanding.

Everyday I try my best to use these characteristics to help me become a better person and to help me to get into a good mood. I do this by trying to make others happy, helping those in need, and giving back to people who have helped me. I also use these qualities by buying my friends chips, forgiving people, and by listening to people who need someone to listen to them.

I do have other good qualities but these are the ones for which I am most thankful. Even though I might not use these qualities as much as I should, I do use them when I think it will change someone's day for the better or make a positive impact on something important. And this is why I am thankful for these qualities.
