

What Qualities Do You Have That You Are Thankful For?

By Mused Almontaser

I am thankful for being brave, athletic, and funny. I am funny. When I say a joke, my cousins laugh, especially my little cousin. I am thankful for being brave. I am brave because when people are afraid of something, I will do it. I will be the first one to try something if others are afraid of getting hurt. I am thankful for being athletic. I am good at sports. If I play with someone, I want to win. Those are the reasons why I am thankful for these three qualities.
