My Unique Qualities

Everyone has their unique qualities. I am grateful for mine because they make me, me. In this essay, I will be sharing my favorites.

One of my qualities is being a dancer. I have been blessed by being a dancer for almost 10 years. Whenever I dance, all the bad emotions and feelings fade away. It can send a message to people about how to relive their emotions as well. Dancing inspires me to keep moving forward.

Another quality is my sense of humor. Having a good sense of humor can change everyone in the room. It lightens the mood. It can make my friends and I laugh and be happy. It keeps me and others positive.

One last quality is my work ethic. I try my best in school and it benefits in my grades which will affect life later on. I have good study habits and drive. It can help with my career.

My dance life, humor and work ethic are my qualities which I am deeply grateful for. I am thankful for each and everyone of them. I look forward to using these gifts in my future.
