The Traits of Thankfulness

I am thankful for many qualities,
This Thanksgiving is to remember my abilities.
I am thankful for my ability to do many things,
These things and the happiness they bring.

I am thankful for my excellence in school,
My close friends and family think it's cool.
I am thankful for my quality of being caring,
It is nothing beyond comparing.

I am thankful for my loyalness,
People say it's what gives me the most worthiness.
I have worked on being most understanding,
This is what I think makes people outstanding.

I am thankful for being hard-working,
Even though I am still learning.
I try to be empathetic towards others,
It really shows a person's true colors.

There is a lot to be thankful this year,
And raise a toast to my peers,
Everyone should write the blessings they have,
And there is always more to add!
