

I Am Thankful.....

~ by William Thuilot

Thanksgiving is about giving thanks. This year, I am thankful for many qualities that have been given to me by God. I am thankful that I am athletic, patriotic, and have a good sense of humor.

The first quality I am thankful for is being athletic. I am very fast and I run for the track team. I also love to surf. I feel very lucky that I live in Rockaway so I can walk to the beach and take in some waves.

Next, I am very patriotic. I am so thankful that I am American and live in a free country. I'm thankful to the military who protect and defend our country.

Last, I am thankful for having a good sense of humor. I always make my friends and family laugh. I love hanging out with my friends and joking around with them. I am very thankful to have such great friends.

This year, I'm thankful for the qualities that God has given me. Being athletic, patriotic, and having a good sense of humor are all things that make me special. I am so thankful I have been given these gifts.
