“My Qualities That I’m Thankful For”

I have many qualities that I’m thankful for. One of them is creativity that helps me in different areas of my life. Since I was just a few years old, I was coming up with different projects, games and art designs. Now that I’m older, I use it in various school projects, homework and in the OLGCArt Club that I belong to. I’m thankful for my creativity, because it allows me to come up with cool ideas quickly. Additionally, I’m very social which helps me get along with my friends and others. I like spending time playing games and talking to my friends. I feel comfortable talking to others, and being friendly helps me meet new people. I also admire my humor because I enjoy making people laugh and have a good time. Another quality that I’m thankful for is my intelligence. It helps me a lot when it comes to getting good grades on tests, quizzes, and just doing my daily classwork. Finally, I’m thankful for being adventures. I’m not afraid to try different sports and activities. I like traveling to different places around the United States and other countries.
