"What I am Thankful For"

I am thankful for many things in my life. But, I feel most thankful for my personality. I am able to interact with other people and make new friends easily. This proves to be extremely helpful in me acclimating to different situations and making myself and those around me feel comfortable. I am grateful for this gift.

I am also thankful for my intelligence and ability to pay attention in class and learn new things from my teachers. If I didn't have my intelligence, and succeed in school, I wouldn't have the opportunity to play sports or have other nice things. Working hard allows me to have the free time to focus on the things that I enjoy. For example, playing football, basketball and baseball. My intelligence also allows me to retain information regarding sports that helps me understand the games I like better and more thoroughly. This not only helps me play better, but also watch and enjoy these games at a different level.

These are the qualities that I am most grateful for in my life.
