

# *Thanksgiving Day Celebration*

The qualities I have that I am thankful for are that I am friendly, energetic, and curious. These are all good qualities to have and I am lucky to have them.

I am friendly to many people and I take time to get to know someone new whenever I can. I am able to be friendly by helping others that I know, as well as people that I don't know. I think that being friendly is one of my best qualities because it involves being nice to everyone.

I am energetic! I have this quality because I like to play many sports and I never get tired. I am always doing something fun that I need a lot of energy for, like playing with my friends.

I am also very curious. This is my favorite quality about myself because I am always trying to learn new and interesting facts and information that I can share with everyone. This quality also helps make me smarter because I like to learn all about some facts. I've learned that we aren't taught everything in school and it is good to be curious.

These are the qualities about myself I would like to celebrate, and be thankful for.
